

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. # BRIEF HISTORY

## OF THE

# FRANKLIN INSTITUTE.

---

THE FRANKLIN INSTITUTE had its origin in the Syracuse Library and Reading Room Association. Previous to this latter, and about the year 1880, a Lyceum for debates was formed in the schoolroom of Mr. Ambrose Kasson. Another similar Association of young men was afterwards conducted in the schoolroom of Messrs. Clark & Green, in the old Onondaga House. It was no part of the object of these Lyceums to form a public Library or Reading Room. The first movement for this purpose was in 1887. On the first of November in that year, the citizens of Syracuse were invited to meet in the Session Room of the Presbyterian Church, to deliberate on the formation of a public Library. The call for this meeting was signed by E. B. Wicks, T. T. Davis, E. L. Phillips, C. B. Hargin, V. Cook, John W. Adams, Geo. Hooker, Oliver Teall, Lyman Clary, Daniel Dana, J. J. Wood, W. A. Cook, D. Bingham, P. D. Mickles, J. Wilkinson, H. W. Van Buren, J. G. Forbes, M. D. Burnet, Wm. Jackson, Wm. I. Dodge, M. S. Marsh, S. W. Cadwell, T. A. Smith, H. Putnam, G. S. Fitch, S. Wilkins. At this meeting a committee was appointed to prepare a plan of organization. At a subsequent meeting, on the 13th, a Constitution was adopted, and on the 15th the following were chosen as the first officers of "The Library and Reading Room Association of the village of Syracuse," viz :

HARVEY BALDWIN, Esq., President.

JOHN G. FORBES, Esq., Vice President.

H. W. VAN BUREN, Treasurer and Librarian.

G. F. COMSTOCK, Esq., Secretary.

And the following Trustees: Rev. J. W. Adams, Rev. C. M. Butler, and Messrs. L. Clary, E. F. Wallace, Daniel Dana, Stephen Smith, V. Cook, H. Davis, Jr., and C. A. Wheaton.

Funds were liberally subscribed, and the Trustees immediately directed *sight hundred* dollars to be expended in books and periodicals. A Reading Room was opened; a Cabinet of Minerals was presented; and for several years a course of Lectures was had in each winter season. When, in 1748, District School Libraries were established, and the country was flooded with *cheap* books, the previous interest in the Library and Reading Room of the Association flagged, debts accumulated, and at length, in the fall of 1845, all its operations were suspended, and the stockholders, by neglect to pay their annual dues, finally forfeited their rights.

In this state of things, an effort was made in 1849 to organize a new Association; and the Executive Board of the old Society, having signified their assent to a transfer of its property to a new one, on condition of paying its debts the Franklin Institute was accordingly organized in December, 1849.

It having been found impracticable to obtain a special charter from the Legislature, the Board of Directors proceeded to incorporate themselves under the *general law* of the State.

The property of the Library and Reading Room Association, which came into possession of the Franklin Institute, was as follows:

*Eight hundred and seventy-one* volumes of books, estimated to be worth not less than *four hundred* dollars.

A Cabinet of about four hundred and fifty Mineralogical, Conchological and Geological specimens, which, with its case, must not have cost less than *one hundred* dollars.

To the above books, 755 volumes were added by purchase and donations,—and in 1851 the Library of the Institute numbered 1626 volumes.

From 1851 to 1857 additions have been made yearly, and the Library now numbers 2700 volumes.

In 1855 the Institute removed to its present elegant, commodious and centrally-located rooms, in the Marble Block, on South Salina Street.

In the Spring of 1857, a consolidation was effected between the Institute and the Mechanics' Association, on terms equally advantageous to both Societies; and the consolidated Association, still retaining the name of the FRANKLIN INSTITUTE, seems now placed upon a sure foundation.
